

If you want to change the appearance of your link boxes on a global scale you can easily accomplish this in three steps:

1. Display your pages in Continuous Page Mode (View>Page Layout>Continuous)
2. Select the Link Tool
3. Select All Links (Ctrl+A / Edit>Select All)
4. Display the Properties Bar (Ctrl + E / View>Toolbars>Properties Bar)

Any changes you make to the properties are applied to all of the selected links.
